Introduction

The Fair Housing Act of 1985 (the “FHA”), provided a constitutional obligation for all municipalities in the State of New Jersey to provide affordable housing. Every municipality in the State was required to provide a “realistic opportunity for a fair share of its region’s present and prospective needs for housing low- and moderate-income families”. Through this law, a Housing Element became a mandatory part of municipal master plan. In addition, a Fair Share Plan became mandatory which illustrated the means of achieving the goals of the Housing Element.

COAH adopted regulations for the First Round obligation, which covered the years 1987 to 1993. It also established the Second Round housing-need numbers that covered 1987 through 1999. The First and Second Round utilized the “fair share” methodology. However, the methodology changed for the Third Round as COAH utilized the “growth share” methodology. The Third Round substantive and procedural rules were adopted in 2004.

By January of 2007, the Appellate Division invalidated various aspects of these rules and remanded portions of the rules to COAH with the directives to adopt revised regulations. COAH adopted the Third Round Regulations in May of 2008 and then proposed additional amendments in October of 2008. By October 2010 after many challenges the Appellate Division invalidated the Growth Share methodology and indicated that COAH should adopt regulations pursuant to the Fair Share methodology utilized in the First and Second Rounds. COAH failed to adopt new regulations by October 2014.

As a result of the events described above, the framework for the Housing Element and Fair Share Plan was changed. The March 20, 2015, Supreme Court Decisions found that municipalities that received substantial certification under the Third Round Rules would be required to evaluate its Plan since its approval was based upon rules that had been partially invalidated. If a Plan placed reliance on the growth share formula, presumptive incentives, or rental bonus credits that were contained within the Third Round Rules but were rejected by the Supreme Court, the plan would need to be addressed.

In the Spring of 2024, the New Jersey Legislature passed, and Governor Murphy signed Law A4/S50 which amended the Fair Housing Act (N.J.S.A. 52:27D-301 et seq.). The amendments provided direction and deadlines for how a municipality must meet its fourth-round affordable housing obligations. This legislative effort was intended to create a more efficient, open, and transparent process for the fourth round and all subsequent rounds.

To effectuate compliance with the Fourth Round of Affordable Housing, municipalities must complete a series of steps and, if the steps are timely completed, the municipality retains immunity from all exclusionary zoning lawsuits, including immunity from builder’s remedy lawsuits. The steps are as follows:

1. **Establish Present and Prospective Need Obligation Numbers – January 31, 2025.** The legislation required municipalities to adopt a Present- and Prospective Need Obligation numbers by resolution by January 31, 2025.
2. **Period to Challenge Numbers – February 1, 2025 to February 28, 2025.** Interested parties can file a challenge to the municipality’s adopted numbers. The Borough did not have any challenges filed against the present and prospective need obligations that were memorialized in the resolution.

3. **If Challenged, Numbers Reviewed and Settled – March 1, 2025 to April 1, 2025.** The Affordable housing Dispute Resolution program will review the municipality's proposed obligation numbers and review the challenge presented. The Borough's numbers were not challenged and not settlement was required.
4. **Development of Housing Element and Fair Share Plan – June 30, 2025.** The HEFSP must contain several components which must provide a realistic opportunity for the development of affordable housing units that will satisfy the Town's ultimate fourth-round affordable housing obligation after consideration of adjustments to the Borough's prospective need number by factors such as insufficient vacant land on which to construct housing. The statutory components of the HEFSP include, among other things, an inventory of housing, demographic and employment analyses, and considerations of lands for suitable housing development. This document will also contain areas recommended for rezoning, redevelopment, or other land use strategies to effectuate such housing development. This document will address all of the statutory criteria required by the legislation to achieve conformance with this step.
5. **Challenge of Housing Element and Fair Share Plan – August 31, 2025 to December 31, 2025.** Interested parties can file a challenge to the validity of the plan and the strategies to address the obligation contained therein- by August 31, 2025. Municipalities will have until December 31, 2025 to settle any challenge or provide an explanation as to why some or all the requested changes from the intervening party will not be made. If there is a settlement, it must be reviewed and approved by the Supreme Court where the assigned Mount Laurel Judge for the county issues an order approving the settlement and the equivalent of a judgment of compliance and repose which is a form of permanent immunity from exclusionary zoning lawsuits for the Fourth Round. If there is no settlement the Program will review the plan and issue a recommendation which goes to the Superior Court where the assigned Mount Laurel Judge for the county issues a decision.
6. **Final Compliance Deadline – March 31, 2026.** Deadline for municipalities to amend its HEFSP in the event the Borough needs to make any changes pursuant to a settlement or a decision of the Court in response to a challenge, and the deadline for the Borough to adopt the implementing ordinances to align with the plan.

Municipal Summary

The Borough of Cliffside Park has an area of approximately 0.96 square miles and is located in the southern section of Bergen County, New Jersey. The Borough has a total population of 25,693 as per the 2020 Census Data. The Borough is bordered by the Borough of Fort Lee to the north, the Borough of Edgewater to the east, the Boroughs of Ridgely and Fairview to the west, and North Bergen to the south.

Bergen County is part of Housing Region 1 as established by COAH consisting of Bergen, Passaic, Hudson, and Sussex Counties.

Affordable Housing Obligation

On January 22, 2025, the Borough memorialized Resolution #2025-26 stating the Present Need (rehabilitation) Obligation of 150 units and a Prospective Need Obligation of 0 units as reported by the Department of Community Affairs (DCA) and Neglia Group.

Borough Goal

It is the overall goal of the Township's HEFSP to provide the planning context in which access to low- and moderate-income housing can be provided in accordance with the requirements of the Fair Housing Act and the laws of the State of New Jersey.

Content of Housing Element

The Fair Housing Act requires that “the housing element be designed to achieve the goal of access to affordable housing to meet present and prospective housing needs, with particular attention to low- and moderate-income housing”. As per the MLUL, specifically N.J.S.A. 52:27D-310, a housing element must contain at least the following items:

- a. An inventory of the Borough’s housing stock by age, condition, purchase or rental value, occupancy characteristics and type, including the number of units affordable to low- and moderate-income households and substandard housing capable of being rehabilitated, and in conducting this inventory the municipality shall have access, on a confidential bases for the sole purpose of conducting the inventory, to all necessary property tax assessment records and information in the assessor’s office, including but not limited to the property records cards;
- b. Projection of the municipality’s housing stock, including the probable future construction of low- and moderate-income housing, for the next ten years, taking into account, but not necessarily limited to, construction permits issues, approvals of applications for development and probable residential development of lands;
- c. An analysis of the municipality's demographic characteristics, including but not necessarily limited to household size, income level, and age;
- d. An analysis of the existing and probable future employment characteristics of the municipality;
- e. A determination of the municipality's present and prospective fair share for low- and moderate-income housing and its capacity to accommodate its present and prospective housing needs, including its fair share for low- and moderate-income housing, as established pursuant to section 3 of P.L.2024.c2(C.52:27D-304.1);
- f. A consideration of the lands that are most appropriate for construction of low- and moderate-income housing and of existing structures most appropriate for conversion to, or rehabilitation for, low- and moderate-income housing, including a consideration of lands of developers who have expressed a commitment to provide low- and moderate-income housing;
- g. An analysis of the extent to which municipal ordinances and other local factors advance or detract from the goal of preserving multigenerational family continuity as expressed in recommendations of the Multigenerational Family Housing Continuity Commission, adopted pursuant to paragraph (1) of subsection f. of section 1 of P.L.2021.c273(C.52:27D-329.20);
- h. For a municipality located within the jurisdiction of the Highlands Water Protection and Planning Council, established pursuant to P.L.2024.c2(C.52:27D-304.1), and analysis of compliance of the housing element with the Highlands Regional Master Plan of lands in the Highlands Preservation Area, and lands in the Highlands Planning Area for Highlands-conforming municipalities. This analysis shall include the consideration of opportunities for redevelopment of existing developed lands into inclusionary or 100 percent affordable housing, or both and opportunities for 100 percent affordable housing in both the Highlands Planning Area and Highlands Preservation Area that are consistent with the Highlands regional master plan; and
- i. An analysis of consistency with the State Development and Redevelopment Plan, including water, wastewater, stormwater, and multi-modal transportations based on guidance and technical assistance from the State Planning Commission.

Housing Element

Inventory of Municipal Housing Stock

An inventory of the municipality's housing stock including an analysis of housing characteristics is presented in this section of the report. The analysis details housing characteristics such as age, conditions, purchase/rental value, and occupancy.

Housing Age

As shown, approximately 70% of the Borough's housing units were constructed prior to 1980; 21.5% of Cliffside Park's housing stock was constructed after 1990, with only 0.5% constructed in this decade so far. The following table illustrates the age of the existing housing stock by decade built.

Age of Housing Stock		
Year Built	Number of Units	Percent
Built 2020 or later	54	0.5%
Built 2010 to 2019	943	8.4%
Built 2000 to 2009	787	7.0%
Built 1990 to 1999	627	5.6%
Built 1980 to 1989	969	8.6%
Built 1970 to 1979	2,251	20.1%
Built 1960 to 1969	843	7.5%
Built 1950 to 1959	794	7.1%
Built 1940 to 1949	844	7.5%
Built 1939 or earlier	3,111	27.7%
Total	11,223	100%

Housing Type by Units in Structure				
Unit Type	2010 Number of Units	2010 Percent	2023 Number of Units	2023 Percent
1-unit, detached	2,150	20.2%	1,967	17.5%
1-unit, attached	794	7.5%	1,257	11.2%
2 units	2,235	21.0%	2,290	20.4%
3 or 4 units	1,021	9.6%	810	7.2%
5 to 9 units	434	4.1%	828	7.4%
10 to 19 units	817	7.7%	756	6.7%
20 or more units	3,191	30.0%	3,278	29.2%
Mobile home	0	0.0%	37	0.3%
Other	0	0.0%	0	0.0%
Total	10,642	100%	11,223	100%

Source: 2010 & 2023 ACS Table DP04

Housing Type

As shown in the table on the previous page, the housing stock is predominantly characterized by multifamily units, in which 20 or more units represented approximately 30.0% of the Borough's dwelling units in 2010 and 29.2% of all units in 2023. The total number of units in Cliffside Park has increased by approximately 581 since 2010.

Housing Conditions

According to the 2023 ACS Census data, there were 27 units lacking complete plumbing facilities, 41 units lacking complete kitchen facilities, and 44 units lacking telephone service. The majority of the units (52.8%) utilize natural gas as the primary house heating fuel, with the remainder utilizing bottled, tank or LP gas, electric heat, or fuel oil.

Condition of Housing Stock		
Fuel Type	Number of Units	Percent
Lacking complete plumbing facilities	27	0.3%
Lacking complete kitchen facilities	41	0.4%
No telephone service available	44	0.4%
House Heating Fuel		
Utility gas	5,610	52.8%
Bottled, tank, or LP gas	474	4.5%
Electricity	3,514	33.1%
Fuel oil, kerosene, etc.	556	5.2%
Coal or coke	0	0.0%
Wood	0	0.0%
Solar energy	0	0.0%
Other fuel	337	3.2%
No fuel used	124	1.2%
Total	10,615	100%

Source: 2023 ACS table DP04

Housing with 1.01 or more person per room is an index of overcrowding. In 2023, the ACS found that there were approximately 467 or 4.4% of occupied housing units within the Borough that were "overcrowded". This number has increased from the 2.9% that was recorded in 2010.

Occupants Per Room				
Occupants	2010 Number of Units	2010 Percent	2023 Number of Units	2023 Percent
1.00 or less	9,837	98.1%	10,148	95.6%
1.01 to 1.50	111	1.1%	254	2.4%
1.51 or more	77	0.8%	213	2.0%
Total	10,025		10,615	100%

Source: 2010 & 2023 ACS table DP04

Occupancy Status

According to the 2010 & 2023 ACS estimates, there has been an increase in occupied households by 667 with a decrease in vacant households by 109. The Borough's housing vacancy rate is estimated to be 5.4% in 2023. A majority of vacant housing units fall under the "For rent" category in the last thirteen years. See the table below for additional details.

Occupancy Status				
	2010 Households	2010 Percent	2023 Households	2023 Percent
Occupied Total	9,948	93.3%	10,615	94.6
Owner Occupied			5,291	49.8%
Renter Occupied			5,324	50.2%
Vacant Total	717	6.7%	608	5.42%
For rent	315	43.9%	272	44.7%
Rented, not occupied	9	1.3%	0	0.0%
For Sale only	77	10.3%	0	0.0%
Sold, not occupied	17	2.4%	43	7.1%
Seasonal, Recreation, or Occasional	157	21.9%	119	19.6%
For migrant workers	0	0.0%	0	0.0%
Other	142	19.8%	174	28.6%
Total	10,665	100%	11,223	100%

Purchase and Rental Values

The ACS provides value estimates for owner-occupied housing units. Over the course of 13 years, homes valued less than \$500,000 experienced an estimated 22.0% decrease in the number of units while on the other hand, homes valued at \$500,000 or more experienced an estimated 22.0% increase in the number of units. The median value of owner-occupied homes in Cliffside Park has also increased by approximately \$131,300. See the table on the next page for details.

Value of Owner-Occupied Units				
Value	2010		2023	
	Number of Units	Percent	Number of Units	Percent
Less Than \$50,000	71	1.4%	59	1.1%
\$50,000 to \$99,999	54	1.0%	19	0.4%
\$100,000 to \$149,999	16	0.3%	0	0.0%
\$150,000 to \$199,999	88	1.7%	43	0.8%
\$200,000 to \$299,999	670	13.0%	416	7.9%
\$300,000 to \$499,999	2,224	43.0%	1,494	28.2%
\$500,000 to \$999,999	1,887	36.5%	2,726	51.5%
\$1,000,000 or more	159	3.1%	534	10.1%
Total	5,169	100%	5,291	100.0%
Median (Dollars)	\$445,900		\$577,200	

Source: 2010 & 2023 ACS table DP04

Between 2010 and 2023, the number of units with rents less than \$1,500 has decreased, while the number of units with rents of \$1,500 has significantly increased from 1,407 to 3,507 units. This upward trend reflects the rising demand in the rental market over the last 13 years.

See the table below for more information.

Cost of Rentals				
Cost	2010		2023	
	Number of Units	Percent	Number of Units	Percent
Less Than \$500	340		234	4.5%
\$500 to \$999	1,083		375	7.2%
\$1,000 to \$1,499	1,857		1,068	20.6%
\$1,500 to \$1,999	1,407		1,614	31.1%
\$2,000 to \$2,499			806	15.5%
\$2,500 to \$2,999			597	11.5%
\$3,000 or more			490	9.5%
Total	4,687		5,184	100%

Source: 2010 & 2023 ACS table DP04

Projection of Housing Stock

As per N.J.S.A. 52:27D-310, a housing element must contain a projection of the municipality's housing stock, including the probability of future construction of low- and moderate-income housing for the next ten years, taking into account, but not necessarily limited to, construction permits issued, approvals of applications for development, and probability of residential development of lands.

The Department of Community Affairs's Division of Codes and Standards website provides data on Certificates of Occupancy and demolition permits for both residential and non-residential development. Within the Division of Codes and Standards website is the New Jersey Construction Reporter, which contains building permit, certificate of occupancy, (hereinafter "CO"), and demolition data that is submitted by municipal construction officials within the State each month. The New Jersey Construction

Reporter has information dating back to 2000, which can be used to show the Borough's historic development trends.

As shown in the table below, 970 new units were built and issued COs between 2013 and 2023 while 301 units were demolished. As shown on the table below, a majority of the housing units constructed (607) were issued COs in 2017 and 2018.

Historic Trends of Residential COs												
	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Total

Probable Residential Development of Lands

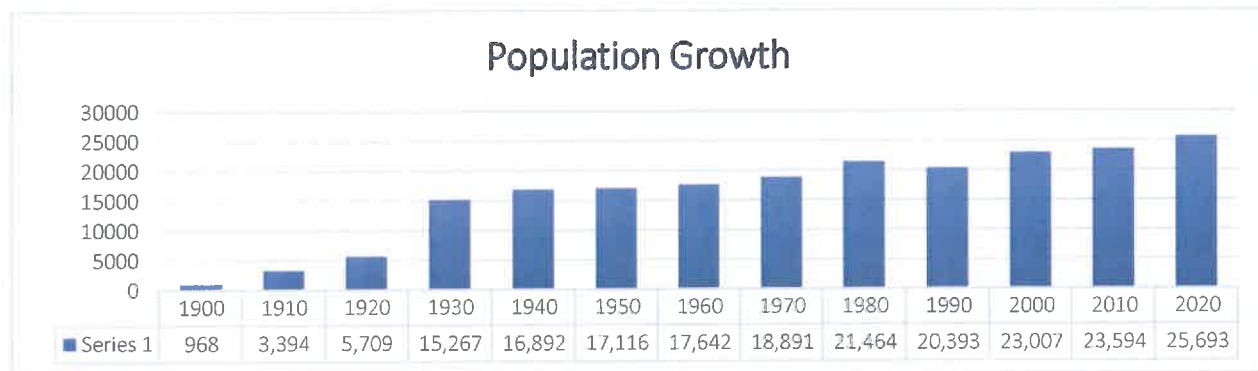

The rate of residential growth over the past ten years and the limited amount of developable parcels remaining in Cliffside Park, it is anticipated that Cliffside Park will continue to see growth in one- and two-family residential development over the next ten years.

Analysis of the Borough's Demographic Characteristics

Cliffside Park's population experienced rapid growth from 1900 until a slight decrease of 5.0% in 1990. Since 2000 the Borough continued to steadily grow in population, and by 2023 Cliffside Park had an estimated population of 25,580 residents. The table and chart below provide additional information. It shall be noted that the five-year American Community Survey data from the US Census Bureau provided estimates of population, housing and employment estimates between the major Census reports each decade. In an effort to display the most up to date information, the data used in this report is sourced from the 2018-2023 five-year ACS estimates.

Population Growth		
Year	Population	Percent Change
1900	968	-
1910	3,394	250.0%
1920	5,709	68.2%
1930	15,267	167.4%
1940	16,892	10.6%
1950	17,116	1.3%
1960	17,642	3.1%
1970	18,891	7.1%
1980	21,464	13.6%
1990	20,393	-5.0%
2000	23,007	12.8%
2010	23,594	2.5%
2020	25,693	8.9%
2023	25,580	-0.4%

Source: US Census Bureau, 2000, 2010, 2020

Age Distribution of Population

The ACS estimates an overall increase in population and median age from 2010 to 2023. The number of residents under 19 years has been increasing from approximately 19% in 2010 to 21.1% in 2023. There has also been an estimated slight increase in residents aged 65 years and older from 17.6% to 19% over the course of 13 years. See the table on the next page for additional details.

Population By Age Cohort				
Age	2010 Number	2010 Percent	2023 Number	2023 Percent
Under 5 years	1,409	6.0%	1,135	4.4%
5 to 9 years	999	4.2%	1,220	4.8%
10 to 14 years	995	4.2%	1,537	6.0%
15 to 19 years	1,087	4.6%	1,507	5.9%
20 to 24 years	1,403	5.9%	1,284	5.0%
25 to 34 years	3,878	16.4%	4,184	16.4%
35 to 44 years	3,468	14.7%	3,350	13.1%
45 to 54 years	3,337	14.1%	2,973	11.6%
55 to 59 years	1,497	6.3%	1,568	6.1%

Racial Characteristics

The following table shows the number of residents in Cliffside Park who are identified as a race from 2010 to 2023. As shown, the majority of races in the Borough experienced an increase in residents over the last thirteen years. The white race and the Native Hawaiian and other Pacific Islander race experienced a decrease in residents, where in 2023 there are an estimated 0 residents for the Native Hawaiian and Other Pacific Islander.

Racial Characteristics				
Race	2010 Number	2010 Percent	2023 Number	2023 Percent
One Race	22,697	96.2%	21,572	84.3%
White	16,541	72.9%	13,881	64.3%
Black or African American	776	3.4%	845	3.9%
American Indian and Alaska Native	75	0.3%	500	2.3%
Asian	3,252	14.3%	3,402	15.8%
Native Hawaiian and Other Pacific Islander	11	0.04%	0	0.0%
Some Other Race alone	2,042	9.0%	2,944	13.6%

Household Demographics

As shown in the table below, there has been an increase in the number family and non-family households in the Borough of Cliffside Park from 2010 to 2023. Female householders without a spouse remains with more household than male householder with no spouse.

Household Type and Size				
Type	2010 Number	2010 Percent	2023 Number	2023 Percent
Family Households	6,179	62.1%	6,569	61.9%
Married couple family	4,455	72.1%	4,774	72.7%
with children under 18	-	-	1,783	27.1%
Male Householder, no spouse	536	8.7%	767	11.7%
Female Householder, no spouse	1,188	19.2%	1,028	15.6%
Non-family Households	3,769	37.9%	4,046	38.1%
Total	9,948	100%	10,615	100%

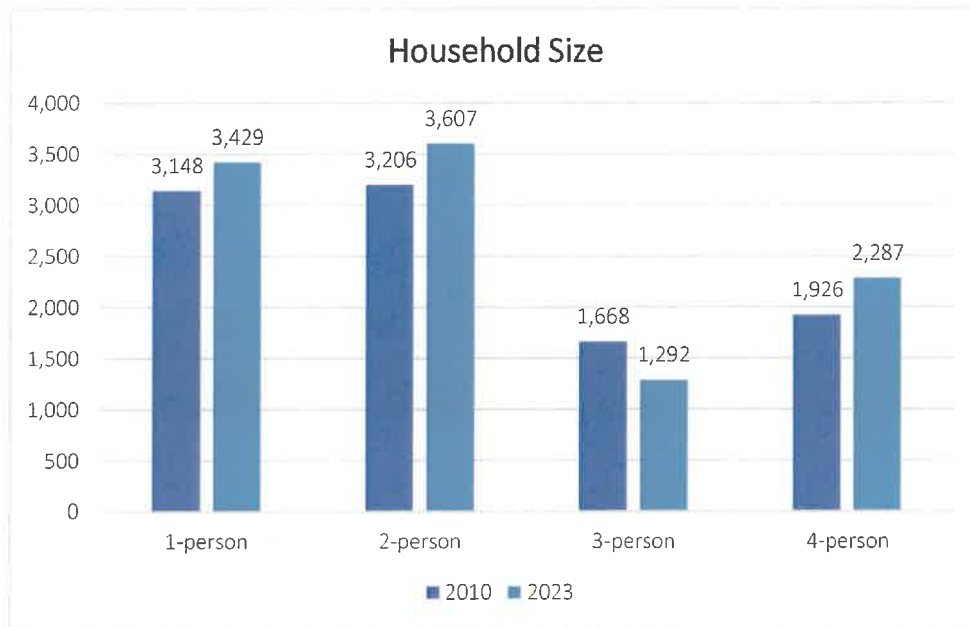

Source: 2010 DEC Table P18 & 2023 ACS Table S1101

Household Size

As shown in the table below, the household size in Cliffside Park has overall increased from 2010 to 2023. Three-person households were the only household types that have decreased by an estimated 376 units. The average household size has also increased from 2.37 to 2.41 in the last thirteen years.

Household Size				
Size	2010 Total	2010 Percent	2023 Total	2023 Percent
1-person	3,148	31.6%	3,429	32.3%
2-person	3,206	32.2%	3,607	34.0%
3-person	1,668	16.8%	1,292	12.2%
4 or more person	1,926	19.4%	2,287	21.5%
Total	9,948	100%	10,615	100%
Average Household Size	2.37	-	2.41	-

Income and Poverty Status

The ACS estimates that the median household, family, and per capita incomes for the Borough of Cliffside Park between 2010 and 2023 remained below the median household, median family incomes, and per capita incomes for Bergen County. There's been an increase in median household, median family, and per capita incomes over the course of 13 years for the Borough and the County. Additionally, the poverty status in families for Cliffside Park has remained above the poverty status for Bergen County.

Income Characteristics				
Income Type	2010 Borough of Cliffside Park	2010 Bergen County	2023 Borough of Cliffside Park	2023 Bergen County
Median Household Income	\$67,856	\$81,708	\$94,960	\$123,715
Median Family Income	\$80,856	\$100,310	\$108,594	\$150,475
Per Capita Income	\$36,157	\$42,006	\$51,220	\$62,986
Poverty Status (Percent of People)			11.3%	6.7%
Poverty Status (Percent of Families)	7.3%	4.3%	7.6%	5.0%

Source: 2010 & 2023 ACS table S1901, B19301, S1701, S1702

According to the 2010 and 2023 ACS data, a majority of households (18.6% in 2010 and 24.7% in 2023%) in Cliffside Park earn more than \$100,000 to \$149,999 per year. Household incomes of 100,000 or more

have increased while household incomes less than \$100,000 (with the exceptions of the 35,000 to 49,999) have decreased over the course of 13 years in the Borough. These changes are also reflected within the household incomes of Bergen County. The median household income experienced an estimated increase of \$27,104 from 2010 to 2023 in the Borough.

Household Income

Fair Share Obligation

As a result of the 2024 amendments to the Fair Housing Act, the Department of Community Affairs (DCA) was empowered and directed to prepare a report to the Governor, Legislature, and municipalities detailing the projected 10-year affordable housing obligation of each individual municipality comprising the various housing obligation of each individual municipality comprising the various housing regions in the State. This ten-year housing cycle begins on July 1, 2025 and continues until June 30, 2035.

This report was released in October 2024. With regard to the Borough of Cliffside Park, the report established the Borough's 10-year affordable housing obligation as:

Present Need: 150 units

Prospective Need: 0 units

The rehabilitation component of the affordable housing obligation is based on the municipality's existing housing deficiencies. It is defined as the number of deficient housing units occupied by low- and moderate-income households within a municipality. A deficient housing unit is a unit with health and safety code violations that require the repair or replacement of a major system. A major system includes any of the followings: weatherization, roofing, plumbing, heating, electricity, sanitary plumbing, lead paint abatement and/or load bearing structural systems.

As a designated Urban Aid Municipality, pursuant to N.J.S.A. 52.27D-178 et. Seq. the Borough is only required to address a Rehabilitation Obligation pursuant to N.J.S.A. 5:93-2.19. The Borough continues to be designated as an Urban Aid Municipality and does not have a new construction obligation.

Fair Share Plan

The final section of a HE&FSP typically details the manner in which a municipality will address its affordable housing obligation consistent with the Fair Housing Act. The Borough has supported the affordable housing through continued rehabilitation within its municipal Housing Authority which consists of 354 Senior Units, 18 Family Units, and 352 Section 8 Housing Units. Additionally, the Housing Authority of the Borough of Cliffside Park is an equal housing opportunity agency that has been providing housing for low to moderate income families and seniors since 1968. The Housing Authority owns and manages 724 units throughout the Borough and is recognized by the Department of Housing and Urban Development (HUD) as a high performing Public Housing Authority. Funding for the Cliffside Park Housing Authority comes from HUD. All rehabilitation completed by the Cliffside Park Housing Authority has been fully funded by HUD. The following chart illustrates the rehabilitation that has previously taken place and the anticipated rehabilitation of the units:

Building/Address	# Units Rehabbed	Year	Total
Senior Building (Completed)	29	2024	29
Senior Building (Anticipated)	35	2025-2026	35
Family Units (Completed)	5	2024	5
Family Units (Anticipated)	4	2025-2026	4
Section 8	-	-	-
575 Palisade Ave.*	2	1/1/10-12/31/24	2
435 Oncrest Terr.*	1	1/1/10-12/31/24	1
Total			76

*Rehabilitation through BCHIP

The Borough will continue with this successful program to address the entirety of the rehabilitation obligation. This plan may be amended following the completion of a structural conditions survey.
